Welcome to The World of Wathb

Brand Story & Founders

Driven by Vision. Engineered by Experience.

Wathb Offroad is more than just a product line—it's a lifestyle solution built by experts who live and breathe offroad adventures. Rooted in the Arabian terrain, we aim to become the preferred offroad brand in the region by addressing local needs with global expertise.

The Founders:

Mausa Albarqi

Founder of Arabian4x4 and Rahaloon Overland. A pioneer in the Saudi offroad community who has tested and represented key brands from the US, South Africa, Australia, and Asia. Mausa has led more than 1500 km of expeditions in the Empty Quarter desert, pushing products to their limits in real-world conditions.

Hang Weng

Founder of one of China's longest-running 4x4 companies. With over 800 professional vehicle modification projects, Weng has built strategic alliances with 126 top-tier suppliers and developed numerous patented innovations. He has led off-road teams through China's toughest uninhabited zones and co-founded the Off-Road Club and Tough Guys Corps.

Ben Ma

A seasoned aviation engineer, Ben infuses the precision of aerospace mechanics into off-road technology. His passion for both land and sky translates into unmatched safety and technical reliability in Wathb's engineering approach.

Kevin Hui

A real estate marketing expert and off-road enthusiast, Kevin specializes in market research and customer experience design. He brings a comprehensive sales lifecycle strategy—from pre-sale to post-sale—tailored specifically for Middle Eastern consumers.

Together, the founders created Wathb as a locally-rooted offroad brand that fulfills regional demands while offering globally competitive quality and value. We are continuously expanding our product ecosystem to cover every aspect of the offroad lifestyle—delivering not just tools, but total confidence.

Why WATHB?

- Built to match the desert conditions of the Gulf
- Engineered for 4x4 lifestyle and utility
- Made with performance-grade materials
- Designed for real users, by off-roaders

Let your flag fly with WATHB.
